MEMORANDUM FOR THE RECORD

**SUBJECT: Senator Henry M. Jackson's Request for Information
on Soviet Politbore**

1. This morning Senator Jackson called to request, preferably by about 2 July 1969, an unclassified paper sketching the background, personality, responsibilities and views on policy questions of each of the Politbore members. Senator Jackson's main interest is in identifying those policy issues with which the Politbore membership may be identified, and the positions and alignments of the individuals on these issues.

2. In addition, to an unclassified paper which he could draw on for public speeches, Senator Jackson would like a classified supplement covering significant points on the same subject for his own background.
